---	--

Pirelli 1900 je dizajnirala kompanija Tecnorib, firma koja radi sa Pirelli-jem od 2005. godine, a svaki njihov proizvod razvijen je temeljno i proizveden kao kvalitetno i pouzdano plovilo. Premijera ovog supermodernog RIB čamca biće na sajmu nautike u Kanu.

Više od jedne decenije Pirelli proizvodi pouzdana plovila supermodernog dizajna. Formiranje plovila koje može da ostvari dobru brzinu uz maksimalnu sigurnost, sa dodatkom luksuza na palubi i kabini, bio je prioritet. Rezultat je čamac koji predstavlja sami vrh u ovoj klasi plovila.

18,5 metara dugo plovilo ima rezervoar za gorivo kapaciteta 2.000 litara sa kojim se snabdevaju dva Man motora, svaki sa po 800 konja. Ovi motori daju impresivnu snagu i maksimalnu brzinu od 45 čvorova. Sa širinom od pet metara ovaj RIB ima dosta prostora sa tapaciranim površinama za sunčanje i fantastičan otvoreni kokpit. Ovo je uzbudljiv čamac, pa osim visokih performansi, obiluje raznovrsnim sadržajima, koji će vreme provedeno na njemu učiniti nezaboravnim.

Čvrsta konstrukcija i hardtop urađeni su od karbonskih vlakana. Aerodinamična linija hardtopa, prodorno ističe moderan izgled plovila. Budući vlasnik može se odlučiti za potpuno otvoren salon ili se sa razvojnim timom Tecnorib-a dogovoriti o mogućnostima prilagodavanja plovila njegovim željama. U unutrašnjosti su smeštene dve kabine, jedna za vlasnika i druga za goste. Takođe, salon i trpezarija se mogu iskoristiti kao dodatni prostor za spavanje. Kada se sto podesi na odovarajuću visinu i pokrije jastucima. Baš kao što je veličina plovila impresivna i iznenađujuća za RIB, tako je i unutrašnji prostor originalan i prostran, pa je Pirelli 1900 pravi mozaik lepote i užitka.

Pirelli 1900 was designed by Tecnorib, a company that has been working with Pirelli since 2005. Each and every Tecnorib product has been thoroughly developed and manufactured as a quality and reliable vessel. The premiere of this super-modern RIB boat will be at the Cannes Yachting Festival.

For more than a decade, Pirelli has produced reliable super-modern designs. Their priority has always been forming a vessel capable of achieving high speed with maximum safety with a touch of luxury on the deck and in the cabin. The result is a boat that represents the very top in this class of vessels.

The 18.5 meter long boat has a 2000-liter fuel tank with two Man engines, of 800 horse power each. These engines give Pirelli 1900 an impressive power and a maximum speed of 45 knots. With a beam of five meters, this RIB provides ample space with padded and upholstered sundecks and a fantastic open cockpit. This is an exciting boat, not only capable of high performance, but also a variety of features that will make time on board unforgettable.

The hard construction and hardtop are made of carbon fibers. The aerodynamic hardtop line highlights the modern look of the vessel. Because of this, the prospective owner can opt for a fully open salon or agree with the development team of Tecnorib on the possibilities of customizing the vessel. Inside, there are two cabins, one for the owner and the other for guests. Furthermore, the salon and dining room can be used as an additional sleeping area, when the height of the table is adjusted to the appropriate level and its top is covered with cushions.

Just as the size of the vessel is impressive and surprising for a RIB, the interior space is unique and spacious, so Pirelli 1900 creates a real mosaic of beauty and pleasure.
